witness ~~named~~: Mr Cook has said that there radio active
tracer, in $\frac{1}{2}$ periodic table, he was informed the calculate
holding this $\frac{1}{2}$ radio active substance is highly
unstable. Mr Cook was also teaching sixth form about
science.

MURDER AND CRIME LESSONS TOUGHT AT M R C

Law lessons are being taught at MRC to let children know all of the crimes that have happened in history. Such as Pajjit where a person was used as a human shield.

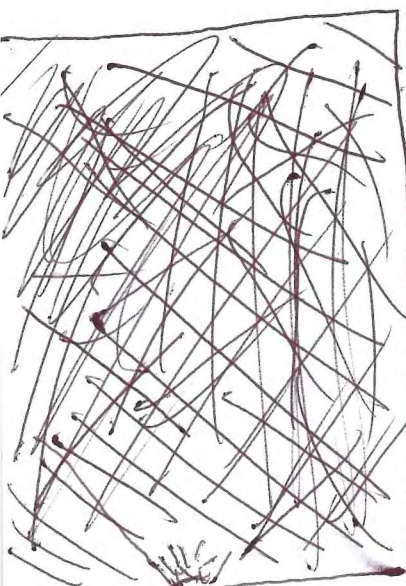

Law is a class where children learn about law so maybe later on in the years they can become a lawyer and look after the world.

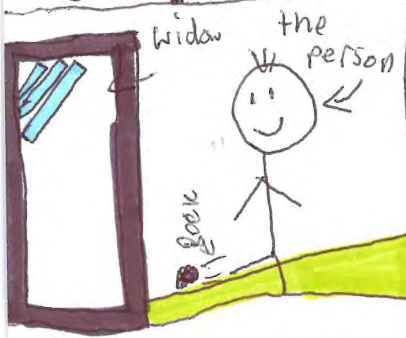

SMASHED

WINDOW! DOOR

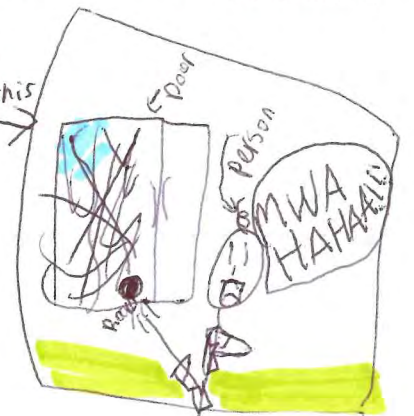

A few days ago a person from MRC has kicked a rock at a window and it SMASHED! People still don't know if the person did it or not, well I think the person does but it doesn't really matter.

I believe that the person did it on accident because I've kicked a rock on accident before. Some believe that ~~like this~~ like this

the person maybe SMASHED but

kicked the rock on purpose. the window isn't more like shattered.

Now turn the next page because it is interesting!

In the drama studio

Get on the dance floor or on
the stage, in MRC!

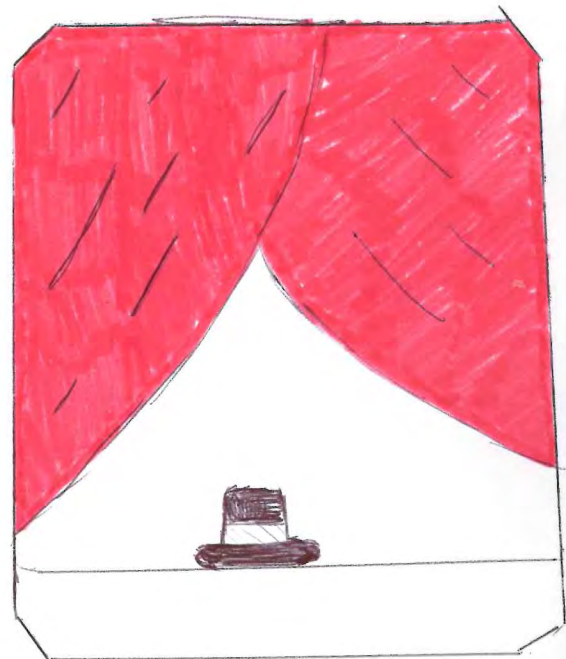

With Ms. Buckingham
have fun and encourage
others!

'Get your inner act out'

Perform pantomimes, shows
and dances!

Collaborate and socialize

Super Science

In the Science room Maisie and Lunar-Mai's group went to look at the Science room, at 09:10am, Wolf corridor. When the group came to the classroom, they saw all of the Science teachers teaching the year 10's. The group told me that they really liked the Science equipment because it is very useful.

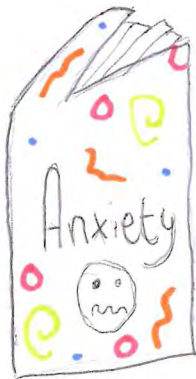

Science

Interview with Maisie V7 top science student, I found out that all ten of the ~~sci-science~~ ~~teach-teacher~~ teachers are very good at their job. Where the science (shown above) are very good at their job. At 9:10 we ~~went~~ went to the wolf corridor where we ~~met~~ did ~~see~~ see saw the science labs and the kind of ~~exper~~ experiments they ~~do~~ do are elegant elephant tooth past, Thermanite, golden Aarain and the reason we do science is so that we learn more about the natural world and ~~the~~ Human bridge the human body. Maisie won the Hanan award for science

Love the Library

Mondays and Fridays are a time to have fun and have a break by building Lego and stacking Jenga bricks.

The library has books how to deal with emotions and bullying.

Ms. Hastings is the library lady, she looks after all the books!

You will be sent to the library if you can't do P.E or other lessons.

'I'd rather read'

You can read, finish homework and hang out with your friends.

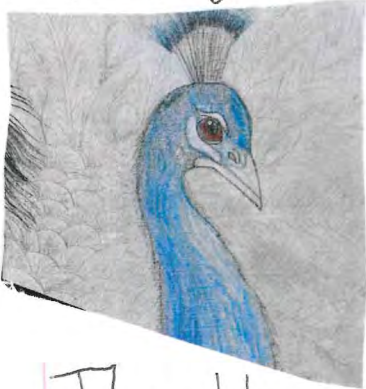

Art review at MRC

The art display showed different colours and types of art. Some of the pictures showed Smit Stitching, some were hand-crafted and made out of newspaper. Most of the art designs are made from animals including birds, insects including spiders, crickets and many others.

Then we saw all the different stuff in the music room including the amazing instruments and all the concerts they will be performing in the year.

ART

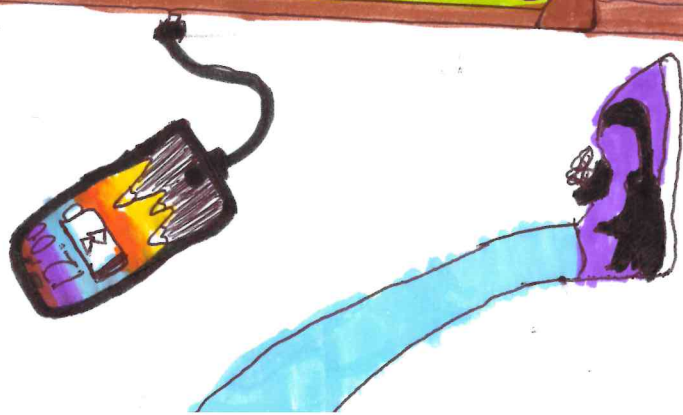

MRC has come up with brilliant art designs made by year 7s and year 8s. They have: paintings, sculptures, drawings and many more!

The library

At 11:35 the year 5s from a selection of schools across ~~west~~ Sussex went to the library to have a look around. The very nice ~~librarian~~ librarian called Mrs Westies told us about the library and ~~where~~ where everything is. The library is placed in the hub and is used by anyone who wants to use it and lastly, the reason that we have a library at ~~midhurst~~ ~~at~~ MRC is so that the students ~~read~~ read more.

FORM ROOM

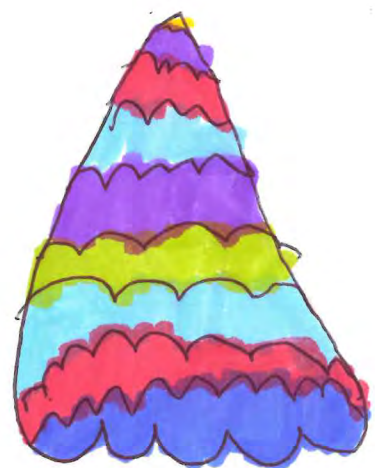

BREAKING NEWS FOR Midhurst-Rother Collage!

MS Kinally is an art teacher in MRC (Midhurst Rother Collage.) She also wants to help children know how amazing art is and how creative people can be with art. Also at 10:11 straight ~~to~~ ^{and we} saw some of the art work that the students have done.

Textiles:

We make things that are fun and we saw MS Bedford who is the textiles teacher and saw her at exactly 10:17. They were doing an endangered animal bag and we made an endangered animal.

YEAR 5 CREATIVE WRITING DAY

TECHS and GYM

FASHION AT MRC

In textiles at MRC the students have been making nice and delightful dresses and cloths some are displayed next to the stairs. Mrs Beagood was happy to answer some questions and she told that they are trying to raise awareness of in danger by making bags (environmentally friendly) to get the world out it with I think is a good idea.

Food Tech

Food Tech at MRC they make a variety of food including: cheese scones, pizza, burgers, macaroni, muffins the food tech class room has lots of ovens and stoves and lots of children enjoy it and have a lot of fun doing food tech.

Wood Tech

In wood Tech people have made block bots. In the wood Tech class room they have drills and all sorts of machines the children enjoy building things with wood.

Gym

In the MRC Gym we saw the year 8 girls getting ready with Ms Simonis the gym looked jam packed and exciting.

BREAKING NEWS

art

At 10:11 Miss Kindly talked to us about the stunning art in the art room. Miss Kindly was saying art is good for your creative flowing stream.

She was teaching ~~artists~~ students complex art to learn. The year 7s were doing clay doughnights inspired by Tea young Kim.

MRC Textiles

MRC work on Art and textiles which looked very interesting.

We had a look at different students art books and interviewed the textiles teacher. In opinion I liked textiles class the most because it was very interesting and would be a good subject to study.

In the Art and textiles class we saw MRC students painting fabric and using a sewing machine which looked really amazing.

The teacher that taught art and textiles said that she started sewing when she was seven and loved it, so became an art and

At 9.30^{AM} year 5 & kids from primary schools across the **West Sussex** have come to do a **creative writing** class with **Ms Wilkie**.

At about 9.45^{AM} we went round the school with some yr7 helpers.

We **saw** the Art room and a room full of **fashion** designs by the **MRC** students, the **creations** amazed me.

We asked some guests about ~~tech~~ this **tech styles**.

Then we left the **class room** and **wrote** on our sheet.

Then we went back to class and **continued** on our work.

Later we went to the **gy Library** and saw the **periodic table**.

There were real **gold nuggets** in there and **crystals**.

Adverts.

@DISNEY PLUS

experience
an overwhelming
experience.

Textiles

At 9.20 AM students were learning textiles to help them learn ~~status~~ skills. In the future it might help them with lots of things ~~using~~ like art and sewing. In year 7 you create a bag to raise awareness of endangered animals...

Library

At 11.31 people went to ~~read~~ and do homework in the library, they can also go there at break but you have to be quiet. Everybody is welcome (sometimes) only if it's break or you're told to go there.

Food tech

At 11.50 the food tech lab was empty but the year 7s have once made: noodles, pizza and gingerbread men.

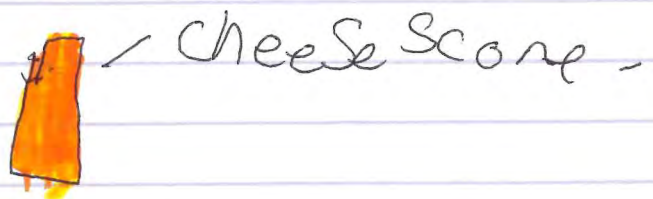

Recipes:

Making a Cheese Scone:

Heat the oven to 200°C highly grease a baking sheet with butter.
Mix together the flour + salt and rub in the Butter.
Then stir in the ~~cheese~~ cheese and mix to get a soft dough. Turn onto a floured work surface and knead very lightly. Pat down to around 2cm. Use a 5cm cutter to stamp out more scones to use it all up. Brush the top of the scones with a little milk, Bake for 12-15 mins cool on a wire rack.

PIZZA

Cheese Scone

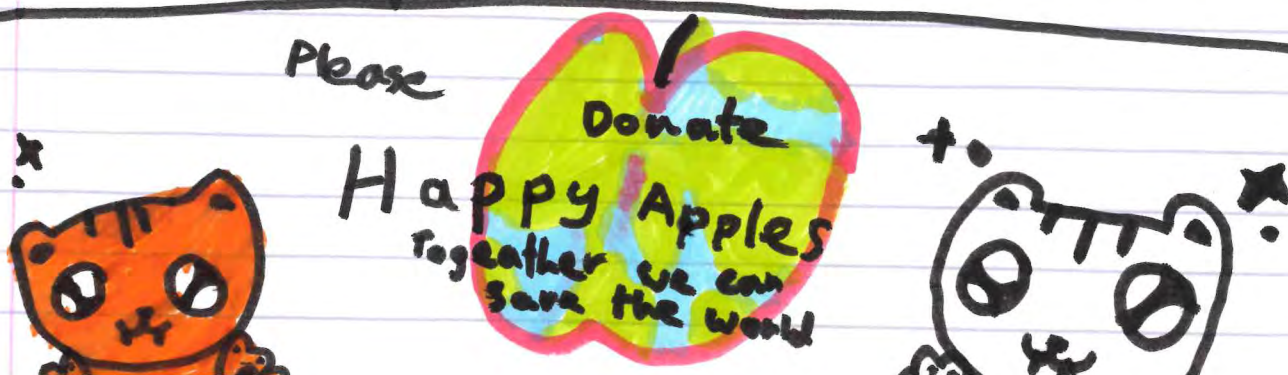

CHIPS

by Some students were doing exams for drama.
Lily Maybe some of the students might have
Kiwindawanted to become just as great as
and William Shakespear. They were doing drama
Eve a bit quiet but also with lots of effort and
Wyman enthusiastic. People doing Drama might
from have the dream of being a famous actress
Fittle Wong or a famous Movie star.

C O F E

Village Away from art and in to science! There
School is radioactive substances in the lab, fortunately
we are safe - or are we? Also, the machine
that extracts harmful gas is broken! Fun Fact.
Au in the periodic table is gold.

Law is an exiting, breathtaking and wonderful
subject! Students study crimes and murders,
all for them to find out. They learn to solve
crimes which makes your brain work! Did you
know that, Once there was a pregnant woman
who got hold hostage and was used as a
human shield, just so that the guy who
kept her hostage, was safe and did not
die! That's one of the cases they were
learning!

Year 7 and 8s have been making bird and bug art, you can see it displayed next to the cafeteria. Some say "it's stunning - you can't miss it!",

There were lots of bug drawings, like scorpions, ants, grasshoppers and lovely bees. All of the bugs had very good detail that a person can mistake it for a real bug!

They were beautiful. everywhere, there were buzzing bugs and singing birds, the gallery is full of sketches, paper masks, sculptures and more. The Year 7 and 8s have worked really hard.

There was lots of different types of art, like sewing. Some students were making dresses and pillows. They were also using sewing machines, and sewing machines are very dangerous! They must have had a lot of practise and be very carefull to be able to be allowed to use a sewing machine.

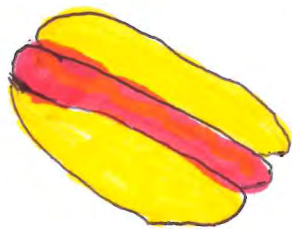

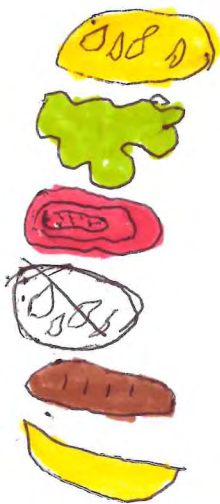

Concert 26 OF MARCH
Don't miss it!

Food

Food tech

Recipe

A couple children were cooking pizzas and burgers were being made. It smelt amazing and after that looking it you can take it home to eat.

LN

you were in a food area and ~~they~~ make good cheese something

- when you are ~~one~~ you choose what have a recipe for something
1. heat the oven to 220°C lightly grease a baking sheet
 2. Mix together the ~~50g~~ flour + salt and rub in the butter stir in the cheese and then the milk to get a soft dough.

floured

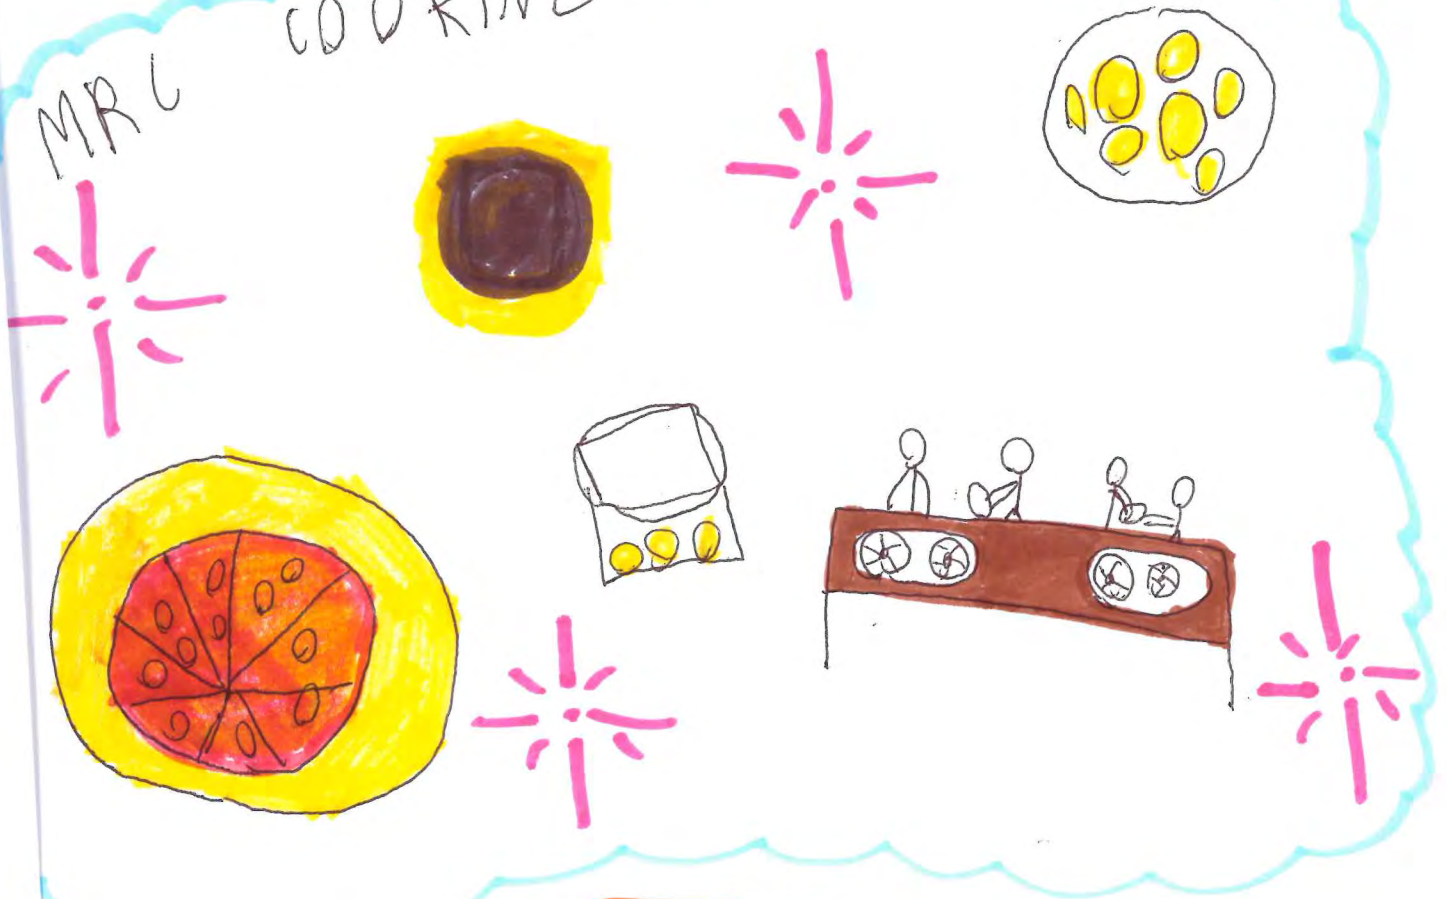

3. turn onto a floured workspace and ~~press~~ very lightly pat out to a round 2cm use a 5cm cutter to stamp out more scores to use it all up.

4. brush the top of the ~~top~~ scores with a little milk ~~the~~ bake for 12-15 min cool on a wire water

Art

Artist at MRC!!!

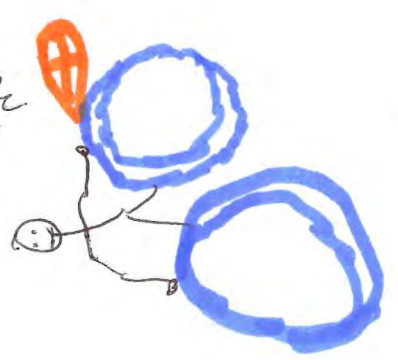

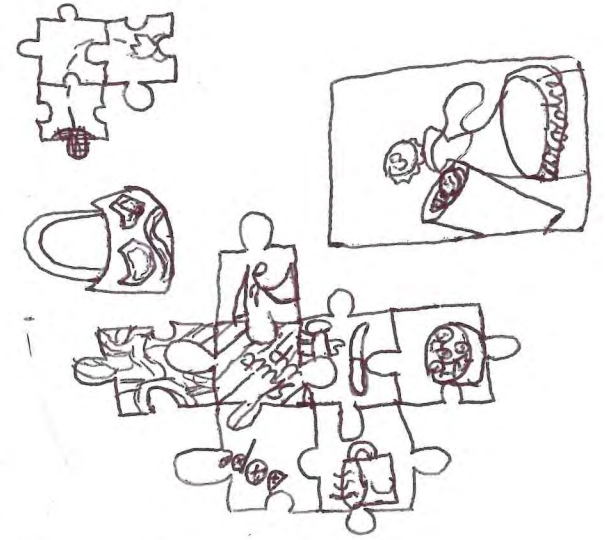

At 10:11 a group of year 5/5 arrived in the ~~the~~ their breathtaking art stunned me. Just outside the art room are puzzle pieces with art. The library was massive and tanks so books were scattered in the library

ostin art room. Many artists are growing

TRAVEL

In MRC, we have the music production people travelling to Austria for a outstanding music festival in Austria. As MS Kelly the music director says that she was super excited to travel with the group going to a massive festival!

CONCEPT
MRC has a
AUSTRIA
great music
production in
March 2017

RECIPES!

At MRC (midhurst) rather college!

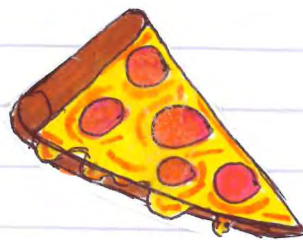

they have loads of lessons learning about recipes and cooking, they have

Recipes including: min cheese, scones and pizza!

Eviz

Caffateria

In the caffateria MRC have a clever system known at the school known as the fingerprint machine. To use it you simply put your finger in the indent, press it down, and then for example you've got £1, it will come up on the screen and you want a pizza. They will give you a slice.

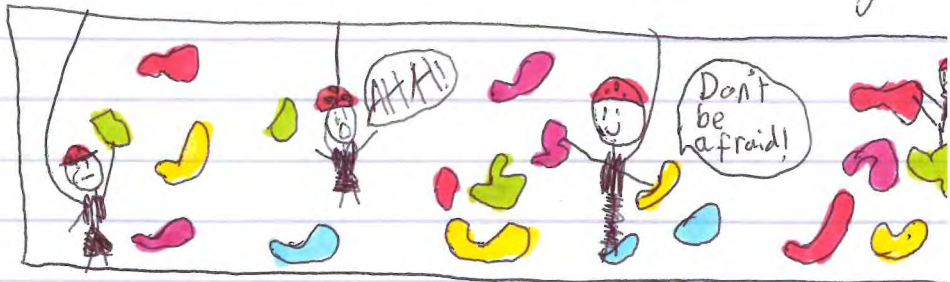

Lunar-Mai Y7 rates the food $\frac{9}{10}$

Meise Y7 rates the food $\frac{10}{10}$

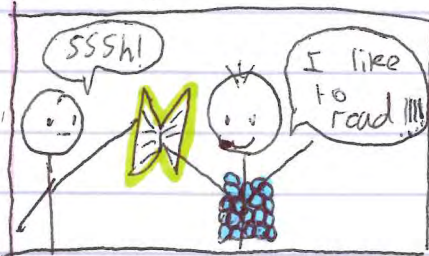

Girls climbing

At 9:17am the girls were doing/learning climbing. They were learning how to climb because maybe they ^{find it} ^{fun} or they can use the skill in life on day (maybe). The girls do the climbing in the climbing room thing I called it the climbing room thing because I don't know what it's actually called.

Reading

At 11:31 people were in the library because some people like to read books. Everyone is allowed in the library because everyone is welcome (I think). Sometimes you have to be quiet in the library because people like to read books in silence.

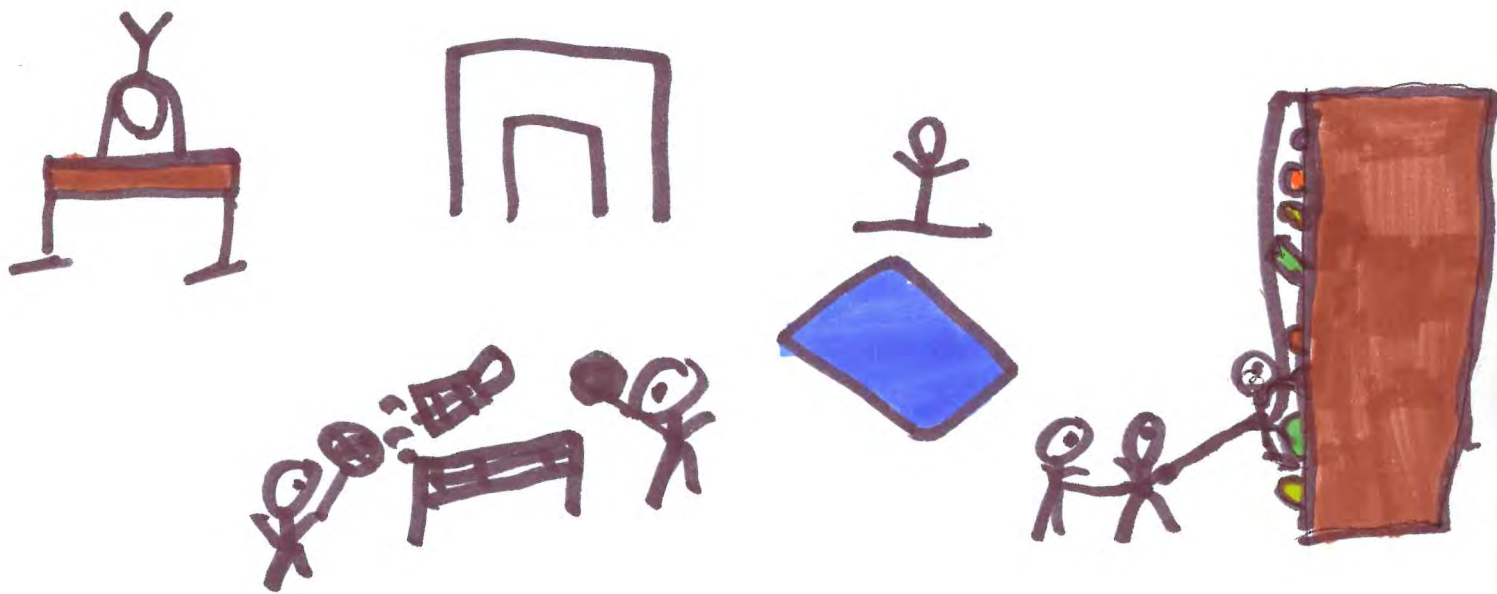

Food and technology

people go to food and technology because they need to learn to cook food so they don't starve to death. you you have got to be careful though to not burn the food!

MRC have got loads of different sports such as badminton and climbing. They do their sports mostly in the P.E hall but if they are doing climbing they will go in a climbing hall with climbing walls so they can practice.

MRC have especially trained teachers to help them learn tricks that they can show family and friends what they have learnt. There are up to 10 P.E teachers that help the children learn.

In my opinion football is my favourite sport so when I go to MRC I love to do it because it is my favourite sport.
